## DOUGLAS SCHOOL VISITED BY DALLAS EXPRESS STAFF REPORTER.

**Many Points of Interest Noted—Students Show Remarkable Skill in Manual Training and Domestic Art. J. P. Starks, Principal, the Guiding Spirit.**

On Tuesday, Oct. 24th, it was a pleasure for a Dallas Express representative to visit the well appointed Fred Douglas City School, located on South Preston street, where more than eight hundred children are in attendance.

The school presented a scene of unusual interest, in appearance and attractiveness; its large and commodious classrooms, its well equipped campus, exhibiting the height of comfort and complete sanitation.

It was shortly after noon recess when we appeared; the students were lined up preparatory to returning to their respective rooms; we saw the youngsters, two in a breast, marching, the music of which was furnished by a large orchestral player piano that sounded much like a string band and could be heard distinctly over the spacious building.

We stood as the tuneful melodies were being played at attention, and at times would observe a slight quivering of our limbs and muscles and an occasional foot shuffle, we were charmed by it, our very soul was filled to the brim by its rich and tuneful chords. They were marching in groups, each group representing a class and each class representing a squad, they passed and re-passed until reaching their rooms where they were seated. Note the secret of this early training and its effect.

The principle of which teaches the student, time in music and in grace of carry. It is the rudiment in the science of gracefulness and a feature very important in modern training schools.

Prof. J. P. Starks, principal, appeared to be somewhat acute in this direction and observe fully the importance of this application.

From this point we journeyed to the basement where the science of shoe-making and domestic art were taught, the most of our time being spent here viewing the work of the pupil.

In the shoe department we found the boys repairing shoes, half-soles and re-building heels, while others were being instructed how to make shoes. A pair of men's first class shoes was made in the shop recently and was sold in the city last week for \$10.50. Persons in the neighborhood, both white and black carry their shoe-repairing to the school and save from 40 to 50 cents on each job. This work is done by the student.

Mr. Chas. Jones is instructor in this department which consist of training the boys in this branch of art.

To the far corner at the right of the building is main entrance to the lunch room where eight hundred children and teachers are served with hot lunches.

The hall is large and spacious and neatly arranged, so as to accommodate the huge crowd that jams its way into the big building. Here lunches are served to pupil at minimum cost. Service in the room is similar to that of a dairy kitchen. Each student secures a small tray and the amount of his or her purchase is placed thereon (by the one in charge of the food) returns to their seat at one of the long tables; in this manner all are served in the shortest space of time without the service of a large corps of waiters.

The food is prepared by competent

ent instructors in the art of cooking and a large gas range is the instrument used in preparing the raw foods for table consumption.

Another bright feature worthy of note is the strict observance of sanitary rules, everything in full view of the eye. The menu is changed daily and consist of, meats, vegetables, potatoes, pies and milk.

Lunches can be had for the small sum of 6 cents. Three children can be fed for 15 cents. If a child has only one cent, it can be served with cereal; 2 cents will purchase a piece of pie, lemon, potato or apple, whatever the choice may be, a 15 cents sale will entitle the student if serving roast beef or stew that day, roast beef and potatoes, maybe beans, pie and milk. The meal is well worth 25 cents and can be procured here more cheaply than can be prepared at home. Nothing but the best material is used.

The teachers also, dine here with their classes. The seventh grade teacher and her pupils have a time for lunch, they come and are served then retire, another instructor and her class come and are served and so on, until all of the higher classes have been waited upon.

Girl students of the higher grades take their turns in the kitchen alternately. They are given lesson each day in Domestic Science. The same case applies in cleaning lunch dishes.

The dining room is a source of attractiveness from the stand point of cleanliness and arrangement. The side walls and ceiling of the interior bore colors of steel gray paint, the tables and other wooden accessories likewise; all of these essentials were instrumental in the perfection of its beauty and convenience.

This department is in charge of Miss R. E. Thrash who has secured the respect of the faculty for her wonderful ability in training students in domestic science.

Miss Thrash told a Dallas Express reporter that the daily receipts of the school lunch room was from \$30 per day and up.

The school buys its own food supplies and this money is converted back into stock and by the end of the school term, a small reserve from the sale of foods is accumulated.

Principal Starks is considering another addition in the kitchen, seeing the need of a first class water heater, is now arranging plans for its purchase.

We wish to say that the mothers and fathers of Dallas should visit Fred Douglas school occasionally and see what its pupils are doing.

Very little has been said about the growth and development of this school, but our first visit through the basement warrants the assertion that open confession is good for the soul. It was well said, and now we desire to inform Dallas and Texas that Fred Douglas school at Dallas is one of the best schools of its kind in the southwest.

Prof. J. P. Starks and his able corp of trained teachers deserve the highest expressions of appreciation.

Their work is commendable.

## GUADALUPE COLLEGE NOTES.

Seguin, Nov. 3.—We were honored by a visit from Mr. H. S. Estelle, Supervisor of the extension work of this district. President Griggs and Mrs. Schultz brought reports of the work done by the Baptist General convention of Texas, which met in Denison. The Normal Division of the Domestic Science class entertained the younger men at a formal dinner. Miss R. T. Smith, a former graduate of G. C. and of the Domestic Science Department of Shaw University is doing excellent work in this department. The young men have finished putting in our wood for the winter. The pecan grove is being relieved of its burden of the delight of all. The last crop of hay has been cut and every thing points to a successful year's work.

## TEXAS TOWNS

Ranger, Nov. 3.—Sunday was a great day at Smith Chapel A. M. E. Church with St. Paul's Baptist Sunday School in union. Sunday school was discussed by the teachers and pupils. All officers present. We had with us Rev. and Mrs. F. P. Thornton of Abilene, Texas. Collections good. At 11 o'clock, Rev. Thornton preached a noble sermon at 3:30 o'clock, Rev. W. E. Sanders of Waxahatchie, Texas, preached. It seems like all good things are coming to us at once. At 7:30 p. m., Rev. Thornton preached again to us. Collections for the day \$12.25. On last Monday evening the W. H. M. Society of Smith Chapel A. M. E. church, met at 4:30 p. m. with the stewards to finish our yearly report and to give our beloved pastor, a friendly hand shaking. The missionary reported \$321.31 for the year. The trustees reported \$727.37. A grand total of \$1,175.13 which means something for Smith Chapel with her small membership. Our motto "Quality, not Quantity."

Our good and ever working sisters presented Rev. Carroway with two nice boxes of lunch that he might enjoy on his way to conference. Our pastor left all smiles. Death came in our midst and took from us, Mrs. Martha Nickleberry, the wife of Rev. T. C. Nickleberry. She had under gone an operation at the City General Hospital, about two weeks ago, the operation proved unsuccessful and death claimed her at 10 o'clock Thursday night, she was a good woman loved by all who knew her; was a member of St. Paul's Baptist church, the president of Home Missionary Society, a sister of the Eastern Star, we loved her, but God loved her best. Her remains were shipped to Ferris, Texas, for enternment. The Eastern Stars having the body, also she was a member of the Burial Association.

Rev. W. D. Davis of Lancaster of-ficiating. The W. H. M. Society and the Home Missionary Society meets at 3:30 o'clock in union Monday evening. All readers of the Dallas Express will find the paper at Mr. Miles Logans, Elm and Commerce streets.
